<p><b>Remove Perfumes</b>            Go through your toiletries, cleaning supplies and air fresheners. Remove from your home any that contain the chemical "parfum" in them. Replace them with a natural alternative.</p>							
<p><b>Minimize Environment(s)</b>            Start with your bedroom. Move your bed so when you are laying down and open your eyes your eyes face the door. For each room move the biggest piece of furniture so it faces the entryway to that room. Keep only functional items in your space(s).</p>

<p><b>Beans!</b>            If you eat animal meat 6-7 days a week cut down to 1 time a week. Replace animal meat with beans and nuts (lentils, black beans, kidney beans, black peas, chickpeas, walnuts, almonds, etc.) and add more fruit and vegetables to your meal regimen. It'll help if you meal plan.</p>
